Bag Catalog

Built for Every Game.

www.tk-sports.eu

Built for Hockey. Designed Beyond It.

The TK Bag Collection is built around two distinct ranges: Elite and Performance.

ELITE combines premium materials, smart organisation and innovative features—including USB-C charging, multiple carry options and hockey-specific storage—for players who expect more from their gear.

PERFORMANCE delivers durable construction, practical functionality and dependable everyday performance across a complete range of hockey bags.

ONE COLLECTION.
EVERY PLAYER.
EVERY JOURNEY.

Our Signature Collection

Elite Stick Bag

The premium hockey stick bag in the TK range. Six pockets, three carry modes, external USB-C charging port, TK carabiner, and the build quality of premium travel luggage.

Elite Duffle Bag

A 65-litre hockey duffle built like premium expedition luggage. Three carry modes, end-access shoe tunnel, USB-C charging port, MOLLE accessory webbing, and an interior that's properly organised.

Elite Backpack

A 30-litre hockey backpack engineered like premium luggage. Fold-down front panel, external USB-C port, hidden phone pocket, and a two-position stick holder. Built for the pitch, works everywhere else.

Elite Cosmeticbag

A compact wash bag in premium HD Milky PU, with internal mesh pocket, zipped pocket, and the TK Elephants shower print. Included with the Elite Stick Bag, also sold separately.

What´s special?

ON EVERY ELITE BAG

15cm-deep battery bank pocket with cable port hole External USB / USB-C charging port

Moulded TK Elephants patch

Tough anti-slip base panel

G-hook loops for optional TK Wash Bag

Air-cushion mesh back panel

Side mesh pocket for bottle

Elite Stick Bag

The premium hockey stick bag in the TK range. Six pockets distribute spare sticks, shin guards, boots, bottles, and kit, each in their own space. The HD Milky PU exterior is soft to the touch, water-repellent, and built to last. The reinforced top loop is drop-tested to 20kg and finished with a silver TK Elephants carabiner. The external USB / USB-C charging port lets you charge from inside the bag. The shoe tunnel has a wipe-clean lining and an air vent. A hidden velvet-lined phone pocket sits 14cm deep on the front. Padded shoulder straps and an air-cushion back panel keep it comfortable fully loaded. The detachable wash bag clips off via G-hook. Carry it on the shoulder, on the back, or by the front handle.

Elite Duffle Bag

A hockey duffle built more like premium expedition luggage than sports kit. The HD Milky PU exterior has a soft-touch matte finish, water-repellent and wipes clean. Inside, a mesh pocket, a flat zipped pocket, and a hanging compartment keep clean kit, dirty kit, and small items where they should be. The end-access shoe tunnel keeps boots separate, with an eyelet air vent so they can breathe. The external USB / USB-C charging port lets you charge from inside the bag. Carry it by the padded top handle, sling it over the shoulder with the detachable strap, or pull out the hidden backpack straps with mesh-padded shoulder straps and sternum strap. MOLLE-style webbing along the top and sides takes accessories. A velcro stick holder strap on one side lets you carry a stick separately.

Elite Backpack

A hockey backpack designed to perform off the pitch as well as on it. The fold-down front panel opens to reveal a fully organised interior with a padded laptop compartment, 15cm-deep battery bank pocket, and a cable port that runs to the external USB / USB-C charging port on the side. The stick carrier folds out of a side zip pocket with two positions — straight up, or with the curved head tucked away for cycling. A hidden velvet-lined phone pocket sits on the back panel. The HD Milky PU exterior is soft to the touch, water-repellent, and made to last. Padded shoulder straps with sternum strap and an air-cushion mesh back panel keep it comfortable loaded.

water-repellent

15€

The wash bag from the Elite range, designed to keep clean and dirty kit separate. The HD Milky PU exterior is soft to the touch, water-repellent, and wipes clean. Opens flat to reveal an internal mesh pocket on one side and a zipped pocket on the other. The TK Elephants shower print on the front signals its purpose. Clips to any Elite bag, or carries on its own. Included with the TK Elite Stick Bag, also available separately.

Elite Goalie Wheel Bag

Built for elite goalkeepers, the TK Elite Goalie Wheel Bag combines exceptional durability with maximum storage and effortless mobility. Constructed from premium 1680D Ballistic fabric with a water-repellent PVC coating, it's engineered to withstand the demands of constant travel and everyday use.
Its upright design rolls smoothly on three heavy-duty skate wheels and stands vertically when not in use, saving valuable space in changing rooms and at tournaments. Protective base rails shield the fabric during transport, while the injection-moulded side handle doubles as a stabilising support when the bag is standing.
With an impressive 225-litre capacity, there's room for a complete goalkeeper kit, making it the ultimate choice for players who demand premium performance without compromise.

PERFORMANCE

Our Signature Collection

P1 Stickbag

A compact wash bag in premium HD Milky PU, with internal mesh pocket, zipped pocket, and the TK Elephants shower print. Included with the Elite Stick Bag, also sold separately.

P2 Stickbag

The largest hockey stick bag in the TK Performance range. 55 litres across five pockets, for players who carry their full kit and more.

P3 Stickbag

The mid-size hockey stick bag in the TK Performance range. 40 litres across four pockets, sized for a normal match kit.

P4 Stickbag

The compact hockey stick bag in the TK Performance range. 32 litres across three pockets, for players who pack light.

P6 Backpack

A 200-litre hockey goalie wheel bag with telescopic handle, stick holder, and shoe tunnel. Everything a club keeper carries, in one bag.

P7 Duffle bag

A 25-litre hockey backpack with foldable stick compartment, laptop sleeve, and padded straps. Made for hockey, works just as well for school, work, or travel.

P2 Stick bag

When you need to carry everything, the TK P1 is built for it. Five pockets distribute multiple sticks, full kit, boots, bottles, and accessories — each in their own space rather than fighting for room. Padded shoulder straps and an air-cushion back panel keep it comfortable fully loaded. The 600D Ripstop construction is water-repellent and made for years of use. The detachable cinch shoe bag clips off when you want clean and dirty kit kept apart.

TK P3 Stick Bag

The middle option in the TK Performance range, sized for players who pack a match kit without carrying spare gear. Four pockets organise sticks, kit, boots, and accessories cleanly. Padded shoulder straps and an air-cushion back panel keep it comfortable on longer days. The 600D Ripstop construction is water-repellent and built to last. A side mesh pocket holds a water bottle or spare shin guard.

TK P4 Stick Bag

The most compact bag in the TK Performance stick bag range, for players who carry only what they need. Three pockets cover the essentials: stick, kit, boots, water. Padded shoulder straps and a padded back panel keep it comfortable on the walk to the pitch. The 600D Ripstop construction is water-repellent and built to handle regular use without complaint.

426243.119

TK P6 Backpack

The Performance-range hockey goalie bag for serious club keepers. 200 litres of capacity in tough 600D HD polyester, water-repellent and built to take years of use. The telescopic handle and durable wheel base roll cleanly through car parks and changing rooms. Stick holder on the front, dedicated shoe tunnel on the side, and injection-moulded side handle for lifting in and out of cars.

TK P7 Duffle Bag

A proper hockey backpack that pulls double duty as a daypack. 25 litres of capacity across three pockets, plus a foldable stick compartment that tucks away when you don't need it. The laptop sleeve inside makes it usable for school, college, or work. The 600D Ripstop construction is water-repellent and built to last. Padded shoulder straps and an air-cushion back panel keep it comfortable. Side mesh pocket for a water bottle.
